June 2023

## Creation of the recycling channel

- **The French Anti-Waste Act for a Circular Economy (AGEC)** of 10 February 2020 created the extended producer responsibility (EPR) channel for the recycling of decorative textile items.
- Eco-mobilier has been a furniture eco-organisation since 2012. Now known as Ecomaison, **it received accreditation on 21 December 2022 for the decorative textile category**, the twelfth category in the furniture items channel, for products intended for individuals and professionals.

Find out which products are concerned, how to join, and how to declare items placed on the market, in order to ensure compliance.

All our tools can be downloaded from the [Services Area](#).

# Implementation of the channel

Ecomaison supports you in your compliance assurance, particularly with regard to joining our eco-organisation in charge of collecting these used items and implementing the eco-fee.

## SCHEDULE FOR THIS PRODUCT CATEGORY

You must **apply the eco-fee to the products concerned as of 1 April 2023**, on your invoices.

This eco-fee must be visible, in addition to the price of the product (refer to **page 6**); see the dedicated chapter in our Services Contract guide for furniture items.

It must be declared to Ecomaison, in accordance with the contractual provisions, on a quarterly or annual basis.
