**Declaration of the eco-fee including textile decoration put on the market?**

In this guide, you will discover all the steps involved in coding and declaring the eco-participation for furniture items placed on the market.

## Stages of the eco-fee declaration

### 1st step: log in to your account

Log in to your Extranet account via the new link:

<https://espace-services.eco-mobilier.fr/contractualisation/landing-page>

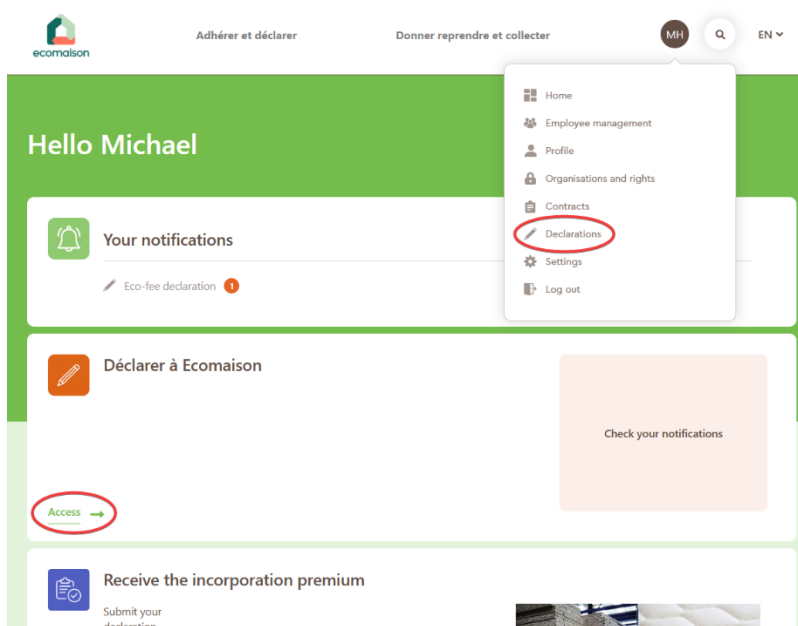

The old access link continues to work.

If you do not yet have a user account, please follow [the video instructions](#), which you can find in [FAQ area](#).

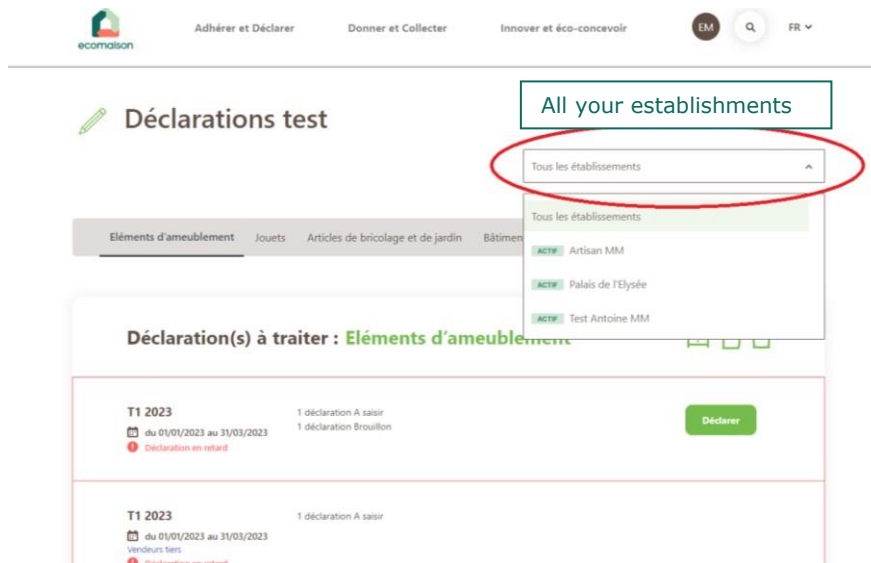

***Please note : before registering, make sure that your contract with Ecomaison has been signed, otherwise the declaration will not be accessible.***

### 2nd and 3rd step: fill in the preliminary information

1. Once you have logged on to your space, go to the declaration page:

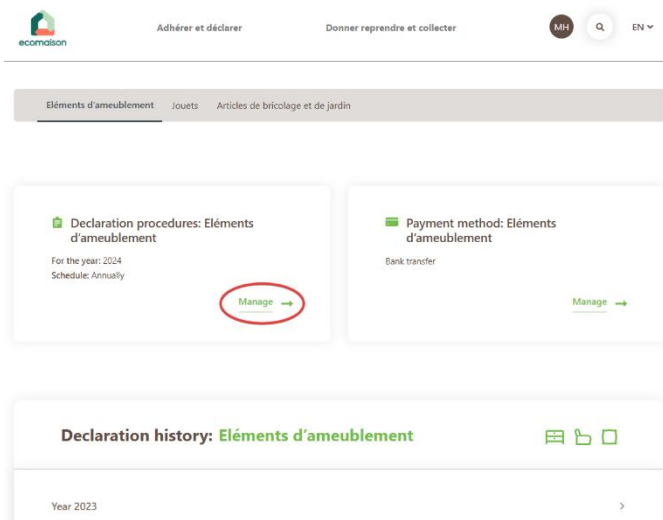

- If you are attached to more than one establishment, remember to **select the establishment for which you wish to make your declaration:**

- Once you are on the declaration page, you will need to set the declaration procedures, as well as the payment method for this first declaration.

To do this, first select the "Furniture components" sector, then select "Manage" in the details box.

Below the list of declarations to be processed, click on the "Manage" button in the declaration type block:

Depending on the amount of sales (excluding VAT) you generate on furnishing items, you can make declarations on the due date either:

- an annual declaration or
- a quarterly declaration.

From 1<sup>st</sup> January 2024, the criteria for simplified declaration procedures has changed. French regulations require that the tonnage marketed be used as the criterion for simplified declaration procedures.

To enter your declaration method, you must:

- Select year.
- Choose your annual turnover bracket. This is a general indication which will not change the amount of the eco-fee.
- Select "**quarterly**" or "**annual**" frequency.
  - o **Annual frequency**: Any company that places fewer than 15 tons on the market each year, subject to a maximum number of 1.000 units, can benefit from simplified codes.
  - o **Quarterly frequency**:
    - o Any company that places more than 15 tons on the market each year
    - o Or any company that places less than 15 tons on the market each year but prefers to use the real eco-participation.

To find out more, take part in our [information webinars \(mostly available in French\)](#).

Once you have selected the frequency of declarations, click on the "**Back**" button to return to the declaration home page.

The screenshot shows the 'Adhérer et déclarer' (Join and declare) page on the ecomaison website. At the top, there are navigation links for 'Adhérer et déclarer' and 'Donner reprendre et collecter', along with a search icon and a language dropdown set to 'EN'. The main form area includes a dropdown menu for 'Éléments d'ameublement', a 'Procedure for the year' dropdown set to '2024', and a timestamp 'Registered on 07/05/2024 at 01:39'. Below this, a section titled 'Indicate your marketing of products subject to eco-fees within the scope of Eco-mobilier:' contains three radio button options. The first option is 'Vous vendez plus de 15 tonnes'. The second option is 'Vous vendez moins de 15 tonnes et plus de 1,000 unités avec un poids unitaire supérieur ou égal à 2 kg'. The third option, 'Vous vendez moins de 15 tonnes et moins de 1,000 unités avec un poids unitaire supérieur ou égal à 2 kg', is selected and highlighted with a green border. A 'Declaration schedule:' section shows 'déclaration annuelle' selected. At the bottom left of the form is a green 'Save' button.

### 4<sup>th</sup> step: Enter your payment method

You then need to enter your payment method. To do this, on the declaration page click on "Manage" in the payment method box.

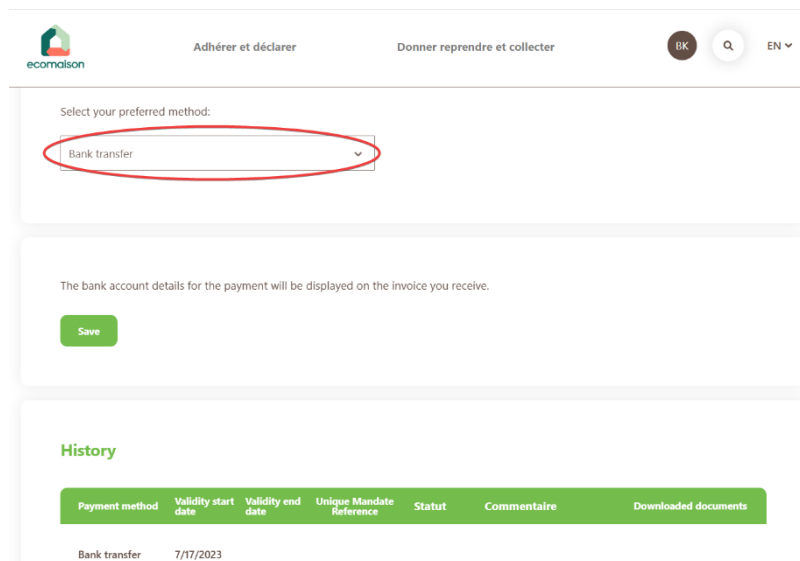

The following payment methods are available:

- Transfer
- Direct debit

Below the list of declarations to be processed, click on the "Manage" button in the payment method block:

This screenshot shows the ecomaison dashboard. At the top, there are navigation links for 'Adhérer et déclarer' and 'Donner reprendre et collecter', along with a search icon and a language dropdown set to 'EN'. Below the navigation, there are two tabs: 'Éléments d'ameublement' (selected) and 'Jouets'. The main content area features two cards. The first card is titled 'Declaration procedures: Éléments d'ameublement' and includes the text 'For the year: 2024' and 'Schedule: Annually', with a green 'Manage →' button at the bottom right. The second card is titled 'Payment method: Éléments d'ameublement' and includes the text 'Direct debit', with a green 'Manage →' button at the bottom right that is circled in red. To the right of these cards is a separate 'Manage' button with a green border. At the bottom of the dashboard, there is a 'Declaration history: Éléments d'ameublement' section with three icons (list, share, refresh).

Then enter your payment method:

ecomaison Adhérer et déclarer Donner reprendre et collecter BK Q EN

Select your preferred method:

Bank transfer

The bank account details for the payment will be displayed on the invoice you receive.

Save

**History**

Payment method	Validity start date	Validity end date	Unique Mandate Reference	Statut	Commentaire	Downloaded documents
Bank transfer	7/17/2023					

### 5<sup>th</sup> step: Preparing your eco-fee declaration.

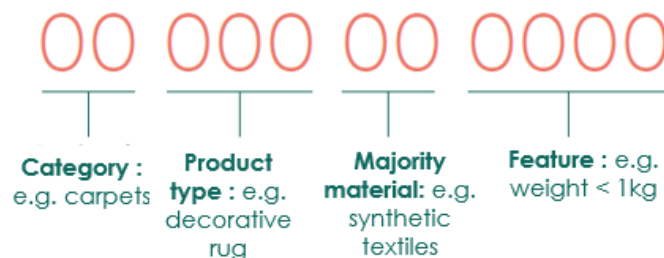

Make sure you have all the information you need to declare, depending on your situation: flat-rate or actual declaration.

You must prepare for the eco-fee declaration:

- Ecomaison's 11-digit product codes and
- Number of units placed on the market by 11-digit product code.

#### How do I obtain the 11-digit codes?

The 11-digit product code is a nomenclature created by Ecomaison to classify items according to their characteristics:

#### The 11-digit codes can be found in the code generator at :

- **For eco-fee declarations for product sold until 31.12.2024 :**  
<https://ecomaison.com/en/ressources/ameublement-generateur-de-codes-produits-et-des-eco-participations-applicable-au-01-01-2024-version-v10-5/>
- **For eco-fee declarations for product sold after the 01.01.2025:**  
<https://ecomaison.com/ressources/generateur-des-codes-produits-et-des-tarifs-applicable-en-2025/>

To code your products:

1. Open the "Code generator" file and go to the **PRODUCT CODE GENERATOR** tab.

**Product code generator**  
Select the elements in the brown boxes

**RESET**

1 - Choose a category:  Code:

2 - Choose a product type:

3 - Choose a majority material by weight or indicate the presence of padding

4 - Choose the dimension of the product:

Resulting in product code:

Eco-fee for 2020 and beyond (€/article on the market):  and its associated eco-fee code:

you can configure this VAT rate 20% / Article / Article

**RESET**

NB : Remember to click on "RESET" before generating a new code. the eco-fee amount including VAT is given by way of information only; the applicable pricing scale is the excluding VAT scale.

> Information Understanding the coding **Product code generator** Carpet panel generator Ecofees Code per size Small Producer codes Eco-fee codes Manuf to distrib info fo

2. Fill in the boxes from 1 to 4 to obtain the code and the amount of eco-participation per unit.

**Product code generator**  
Select the elements in the brown boxes

**RESET**

1 - Choose a category:  Code:

2 - Choose a product type:

3 - Choose a majority material by weight or indicate the presence of padding

4 - Choose the dimension of the product:

Resulting in product code:   
Bedroom\_furniture, Shelves, panels, > 50% wood, wood panels, and wood derivatives ,Between 2 kg and < 5 kg

Eco-fee for 2020 and beyond (€/article on the market):   
 and its associated eco-fee code:

you can configure this VAT rate 20% / Article / Article

**RESET**

NB : Remember to click on "RESET" before generating a new code. the eco-fee amount including VAT is given by way of information only; the applicable pricing scale is the excluding VAT scale.

## 6ème step: Declare the eco-fee

First of all, we will ask you to check the profile of your establishment, so that we can verify whether you are registered as a Manufacturer/Industrialist or as a Distributor/Importer (see appendix "[Establishment Profile Operating Procedure](#)").

Once you have clicked on the "Declare" button, you can choose:

- Import your declaration using the template\* that you can download by clicking on the "Download template" button,
- Enter your declaration manually", or
- To "Declare nothing" when applicable.

**\* Please note: Download the latest model from your Services area to use as a template. It may change according to regulations.**

	A	B	C	D	E
	code ecomaison a 11 chiffres [obligatoire]	Nombre d'unité fonctionnelle (unités, tonnes, m <sup>2</sup> , ml, m3...) [obligatoire]	tonnage [non obligatoire]	vos references [non obligatoire]	Montant d'éco-participation si code combinaison (exclusivement Ameublement) [Non obligatoire]
