Presentation of Ecomaison

Ecomaison's presentation

Reuse and Recycle
Household items

furniture | bedding | decorative textile items | materials | DIY | gardening | toys

▶ Who are we?

Created in 2011 under the name of Eco-mobilier, we are a **non-profit organization** approved by the French State and funded by eco-fees paid by consumers in France.

▶ Our mission

To **collect and recover used household items and materials** and offer them a second life by recycling them or using them as a source of energy. With 760,000 tons per year, Ecomaison has become the 1st supplier of recycled wood in France.
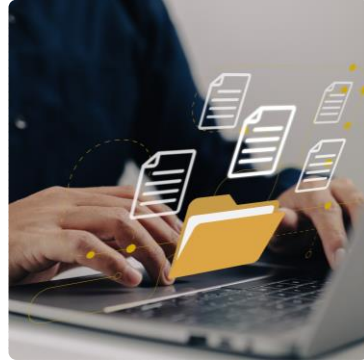

Our project : making it easier to recycle furniture components

Become the main eco-organization for the home

Offer companies a global solution **for home materials and products**

Simplify Extended Producer Responsibility

Propose appropriate tools and information to **facilitate the implementation of eco-fee.**
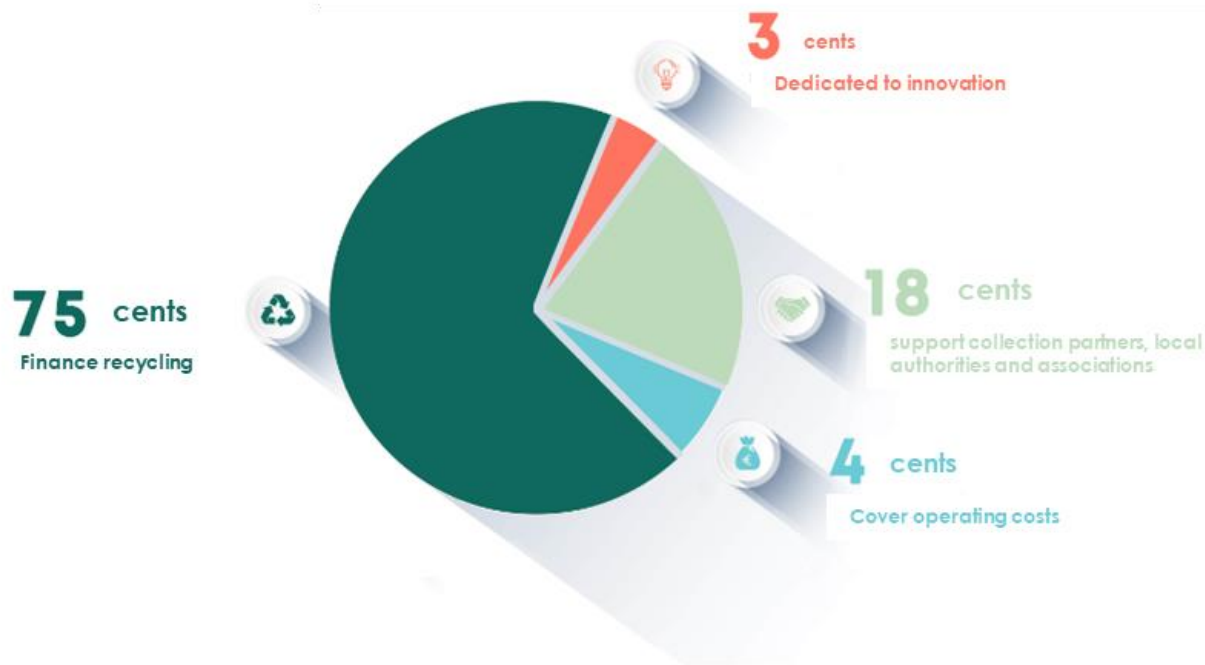

Offer an efficient recycling network

Organize **free collection points throughout France** for sorted waste from manufacturers, distributors, their suppliers, craftsmen and private individuals
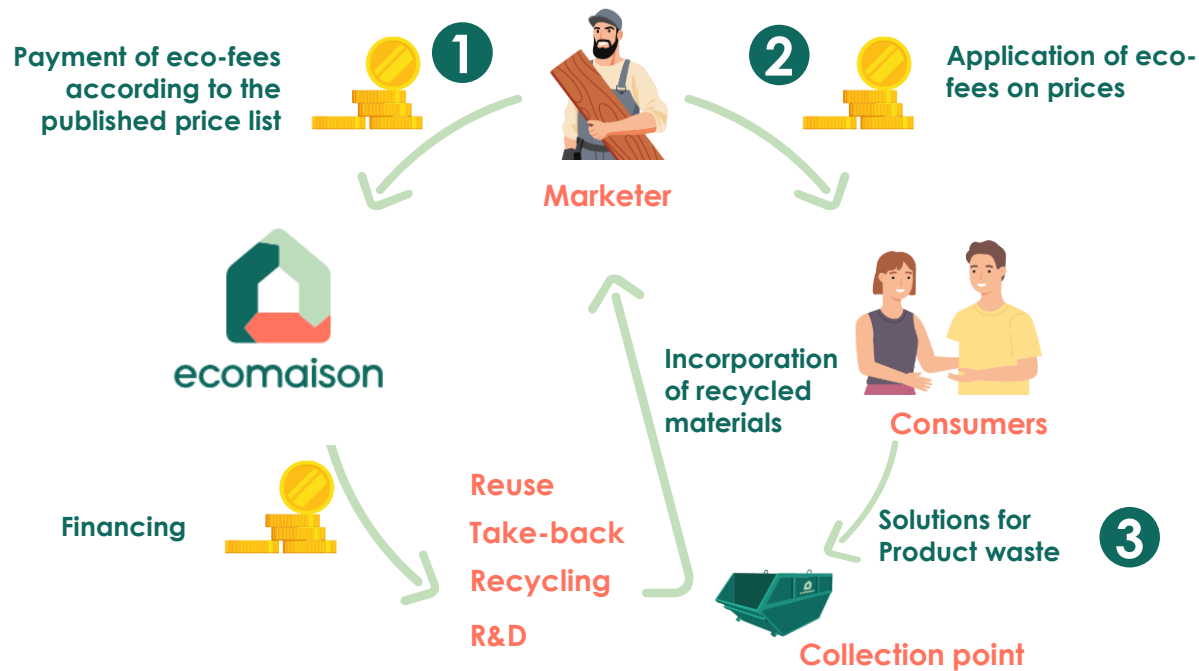

Recycle and produce

Contribute to the **development of the recycling and energy recovery industry** in France and in Europe.

ecomaison

On average, for every €1 of eco-fee paid :

3 cents
Dedicated to innovation

18 cents
support collection partners, local authorities and associations

75 cents
Finance recycling

4 cents
Cover operating costs

	Duvets and sleeping bags	Padded	10	€1.50	€1.80	11029120900

Conditions for using simplified codes

At the beginning of each financial year, the marketer will determine whether the declaration is to be made "**quarterly" or "annually".**

Any company that places fewer than **15 tons on the market each year**, subject to a **maximum number of 1.000 units**, can benefit from simplified codes.

Furniture	LESS THAN 1,000 UNITS AND 15 TONNES ON THE MARKET
Frequency	Annually or quarterly
Declaration	Actual quantities or Fixed price
Fixed price	Fixed Price per product category and per **batch of 10 units**, without declaration of product weight or material.
Terms of payments	1st of February Y+1

ecomaison

How do I declare?

- To declare, click on the "**Declare**" button and choose the period concerned

- Please note **that declarations can only be made EPR by EPR at present!** You need to make a separate declaration if you are concerned by the other Ecomaison-approved scheme (Building, Furniture, DIY Garden).

How do I declare ?

There are two methods of declaration :

▶ <u>MANUAL</u> : If you declare annually you may **directly enter manually your the necessary information :**

    - the code

    - the functional units.

▶ <u>IMPORT FILE</u> : download the template, fill in the CSV spreadsheet and import the file.

▶ If you have nothing to declare, click on "**Do not declare anything**".

▶ Remember to enter your company's internal order number if you want this reference to appear on the invoice we send you.

How do I declare ?

11 digit Ecomaison Code	Number of units	Tons (up to 3 decimals)	Your references	Amount of Eco-fees (not mandatory)
31201050830	137			
31202410830	70			
31202410850	96			

- Choose to fill the file with the « actual / quarterly » declaration codes.

- Declare by product category and units

▶ The template is unique and common to all EPR.

▶ The dark green columns are mandatory.

▶ You can download the file template on your « Espace services » account.

▶ The file to be imported must be in .CSV

▶ If you encounter any problem with the uploading, you will have an error report.

Key points for the furniture declaration for products sold during 2023

▶ **Declaration of marketing in arrears, based on quantities actually marketed in 2023.**

▶ **The annual declaration period runs from January 1 to January 31, 2024.**

▶ **Specific to the annual declaration of textile decoration items: you must declare your marketings only from April 1, 2023.**

▶ **As long as the draft is not validated, the declaration is not visible and therefore not valid for Ecomaison.**

▶ **You need to make a separate declaration if you are concerned by the other channels approved by Ecomaison (Building, DIY, Toys).**

3.

2024 updates

2024 scale: what's new?

 Ecomaison has published its new eco-participation scales to finance its activities and continue to develop the furniture sector

 Updated scales also take into account **changes in products and materials**

No need to change product coding

For the record, the tariff has remained stable since 2020.

No change in structure

▶ Conservation of the 4 product families :

- Furniture and fittings
- Bedding and accessories
- With and without padding seating
- Textile decoration

▶ Keep the same 11-digit product codes

▶ New eco-participation rates to be **applied and displayed** from **January 1, 2024**, and to be **collected** for the first **declaration** from **April 1 to 30, 2024 or in January 2025 for annual declarations.**.

ecomaison

Changes in 2024: the disappearance of the flat rate (1,6%)

▶ **The regulations stipulate that <u>tonnage marketed</u> is the criteria for simplified declaration procedures.**

➢ **The criteria is no longer marketing sales, but marketing tonnage (15 tons per year).**

➢ **The Annual fee has been replaced by simplified coding.**

To be implemented for products sold in 2024, <u>first declaration on January 1, 2025.</u>

ecomaison

Ask the right questions to ensure compliance:

▶ **Can I benefit from simplified declaration procedures in 2024?**

✓ **YES**

YES If I put less than **15 tons** of furniture on the market each year.

AND **Eather** items sold weigh **LESS than 2 kg/unit, with no limit on quantity.**

Eather items marketed weigh **MORE THAN 2 kg/unit, with a limit of 1000 units each year.**

ecomaison

How do you prepare for the 2024 modifications?

▶ **No change for the products sold during 2023 :** In January 2024, companies with sales of less than € 500,000 will be able to declare using the flat-rate system (i.e. 1.6% of sales).

▶ **Integration of the new eco-participation scale**, with simplified or standard codes to begin during 2024. Companies must anticipate and prepare the coding of their products for invoicing their customers and for their Ecomaison declaration.

▶ **In January 2025**, the "small-scale marketer" will make his first declaration using the new 2024 coding, if he meets the new criteria and if this is not the case, they will use the standard codification.

Possible simplification for companies with low volumes

▶ **A small producer is a marketer whose annual tonnage is less than 15 tonnes.**

- Each piece weighing less **than 2kg** is eligible, **up to a limit of 15 tons** marketed per year.

- For pieces weighing **over 2kg**, a maximum of **1,000 pieces** may be marketed, up to a limit of **15 tons**.

▶ **Particularities :**

- Declaration per 10 products

ecomaison

Administrative reminders

Administrative scheme

- **Furniture**
- **DIY and Gardening**
- **Toys**
- **Building**

| 1 contract per sector * | → | 1 unique identifier (UID) per channel | → | 1 declaration per sector | → | 1 invoice per sector | → | 1 payment per sector |
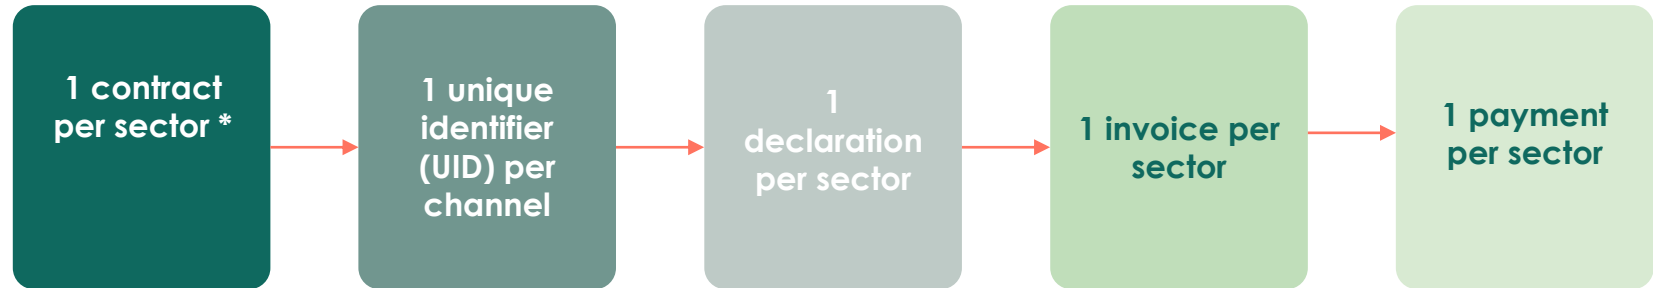

ecomaison

Payment

1 IBAN per sector

Available on invoices

On request to the Finance Department :
comptaclient@ecomaison.com

🔻 **Pay attention to:**
- Centralise payment on a single IBAN, if multiple bank details are impossible to manage in your accounting system
- Indicate the invoice number(s) in the wording of your payment

Please note: Declarations made outside the declaration period (late registration or late declaration) are payable on receipt, as specified in article 6.4.1 of appendix 4 of your Ecomaison services contract.
